Volunteering UK Factsheet

How to Get Involved?

There are loads of ways to volunteer in your area - all you need to do is find your passion and then get in touch with an organisation that can help. If you want to volunteer, your first point of call could be a national volunteering organisation who can talk through the kinds of opportunities that are available to you in your area which suit your needs, expertise or hobbies. Before making contact with an organisation, think about what you want to know from them, and what they are likely to ask you. How much time can you give? At what time of day? What do you want to get from volunteering, e.g. meeting people or gaining new skills? What skills or experience can you offer?
